System Requirements

Network Product Requirements

School-Hosted Server Model

A dedicated server is preferred but not required. Contact our technical support prior to purchase for non-dedicated configurations.

- Windows® 2000 or 2003 server
- Pentium® IV 1.5 GHz processor or equivalent (2 GHz or higher recommended)
- 512 MB RAM
- 80 GB available hard drive space (120 GB recommended)
- CD-ROM drive
- Ethernet LAN port
- Bandwidth T1 or better

ASP Model

- Bandwidth T1 or better
- Port 443 open to the Soliloquy Learning Web site for both uploads and downloads

Note: The server does not depend on any existing network services, such as those provided by an NT4 or a Windows® 2000 network infrastructure.

Client Workstation Requirements

Windows®

- Pentium II 400 MHz or equivalent processor (minimum); Pentium II 800 MHz or equivalent processor (recommended)
- 128 MB RAM (minimum); 256 MB RAM (recommended)
- Windows 2000®, Windows XP® Home/Professional
- 200 MB free hard drive space, plus 100 MB additional free hard drive space per user
- 800x600 resolution display
- 10/100 Mb Ethernet LAN port (minimum)
- 16-bit color level for the monitor
- 4 MB Video card with Direct X support (minimum); 8 MB Video card with Direct X 8.0 support (recommended)
- SoundBlaster PCI/AC97 compatible sound device with DirectSound support (if a second soundcard is present it must be disabled)
- Microsoft Internet Explorer 6.0+/Netscape 6.2+ (minimum); Netscape 7.2+ (recommended)
- Soliloquy Learning approved microphone headset (included)
- True Type Fonts: Arial, Comic Sans MS, Courier New, Georgia, Times New Roman, Trebuchet MS, Verdana

Note: Users MUST have administrative permissions to install this application. File system access control software must allow read and write access to the application data directory. All applicable operating system, and sound and video device patches should be applied.

Macintosh®

- Apple Macintosh® with a G3, G4 or G5 processor, 400 MHz or higher;
- 128 MB RAM (minimum); 256 MB RAM (recommended)
- Mac OS 10.1.4 (minimum); Mac OS 10.2.6 or later (recommended)
- 200 MB free hard drive space plus 100 MB additional free hard drive space per user
- 10/100 Mb Ethernet LAN port (minimum)
